Prof. Dr. Sinasi Aydemir,
Department of Architecture and Engineering,
Black Sea Technical University,
61080 Trabzon, Turkey

Dear Prof. Dr. Aydemir,

I cannot trace that you ever received an acknowledgement of the receipt of your manuscript "Rural development potential: A factor analysis approach. The Artvin province case". We apologize for this oversight.

Your paper has been classified for consideration for an issue of our journal on Rural settlements but this will still take some time because there is a considerable delay in the publication of previous issues of the journal due to financial and technical reasons. If you do not object to our keeping the article until the issue on rural settlements or another suitable issue appears, we will get in touch with you again when work starts systematically on the subject.

Thanking you again for your interest in EKISTICS,

Yours sincerely,

A. Sklirou

(Mrs) A. SKLIROU
Secretary to P. Psomopoulos
